

May 2016 Stock Common

**Bedwyn Footpaths Group Monthly Walk – Sunday 22<sup>nd</sup> May 2016**

From The Cross Keys Route is approx 2.75 miles. 9 walkers.

This month's walk was a fairly gentle 2 ¾ miles and took us up alongside Shawgrove Copse and across to Stock Common before returning to the village down the high bank path, by the road to Forest Hill. There are lovely views across the fields and down the valley to the village. Bluebells flower in the Copse in spring and skylarks can often be seen over these fields.

This is the group's 16<sup>th</sup> monthly walk and we are still walking and monitoring paths that we haven't yet walked as a group – this time the western section of path No 16 and the northern end of path 14.

Please note that there are 4 stiles to negotiate and, as the weather warms and the grass gets longer, be sure to protect yourself against tics.

*No map available for this walk. Contact for details*
